Catch up funding for the period of Sept 2017 – July 2018 budget. Data analysis current relates to Sept 2017 to June 2018.

During the period this period, the school invested £26,183, a variety of intervention strategies including:

- Maths support in basic number with two LSAs completing Power of 2 and 1 work for 10 minutes 3 times a week. The cost involved both the purchase of the books and the distribution of our two LSAs to deliver the intervention.
- An increased in staffing hours for maths teaching in September 2017 so that key stage 3 has an additional maths lesson a week.
- Saturday morning interventions from April 2017 to January 2018 for those students not making age related expectations in English and Maths.
- Re deployment of an LSA to focus primarily on PP and Catch up students and to support with additional out of hours (am and pm) homework and independent learning support. This role also involved weekly liaison with parents moving to half termly to secure their support and understanding of how to manage learning at home.
- One to one LSA sessions to close a gap identified in learning predominantly in Core subjects but assessment support has also been provided for foundation subjects.

Where can we see impact? Strong impact.

- In Maths out of the 66 students who began the year working towards only 3 were not making good or rapid progress in their April data. 42 students are now AT age related expectations and 1 student is above their age related expectation.
- In Reading out of 41, 1 student made limited progress and the remainder 40 made good and or rapid progress. 26 are now age related, 6 are above.
- In Writing out of 46 students, 2 student made limited progress the remainder made good or rapid progress. 26 are now age related and 2 are above.
- In Science our of 22 students, 3 made limited progress and the remainder made good progress or rapid. 10 are now at age related.

How can we improve the impact further – what next? – Summer term

- As our catch up students develop their independence and confidence to tackle learning outside the classroom we are now looking to re-introduce parental involvement in homework so that they parents are secure in how to support and help their child. This will be particularly relevant in the next year as students will not have this LSA support at Freman their higher school destination.
- Our year catch up students who have not made progress will become part of our classroom intervention groups in English and Maths this term.
- Homework and independent group and one to one support will continue before and after school and at lunchtime.

September

• Year 8 former catch up students not reaching targets will be supported in Interventions on Saturday and Tuesday and Wednesday pm from September to Christmas to ensure they get as close to age related as possible prior to leaving us.

How successful have we been? Based on April 2018 data.
