

Rib Valley Schools

"Together we offer more"

Serving Buntingford, Puckeridge and the surrounding villages
The Rib Valley Schools provide excellence in education
from the age of three to eighteen

The Rib Valley Schools provide families in our community with an excellent fully integrated education. Together we aim to ensure that every child is happy and successful throughout their whole school career.

"I have really enjoyed my school years. I have been very well taught and have had the chance to participate in an enormous range of extracurricular activities. Now I am looking forward to university and feel well prepared for what lies ahead"

"I am delighted by the education my daughters have received. They have been so well looked after and have been given so many exciting opportunities. I couldn't have asked for more!"

- **High educational standards from nursery care through to an exceptional range of A levels and Oxbridge coaching**
 - A coherent, challenging and carefully constructed curriculum running from Nursery through to the Sixth Form
- **Continuity of pastoral and academic care as pupils move together from one partner school to the next**
 - High quality specialist facilities for subjects including science, technology, sport, the visual and performing arts accessible to all ages
 - **Outstanding extra-curricular opportunities**
 - Staff and pupils working together across the three phases of education
 - **Close, long standing relationships with our pupils and their parents**

The distinctive nature of our three tier family of schools means that we can share resources to benefit all our pupils from their earliest years until they reach adulthood. Pupils and staff from the three tiers of our partnership work alongside each other and share facilities.

A child in a Rib Valley School benefits from the expertise and facilities of not just their own school but those of the whole dynamic partnership.

The distinctive nature of the Rib Valley Schools' three tier system enables us to offer a quality of education from the age of three to eighteen that is rarely seen in the state education system.
