

Year 8 Homework – due w/c 13th May

Research 'Portraiture' and find at least two artists whose work you like. List the names of the artists and give a short description of the artists' work – what media do they use? Do they have a preferred colour palette? What style of portraiture do they create? What do you like/dislike about their work?

Print out an example of each of their work – small images are fine.

Copy one of the images you have printed out, scaling up to at least A5, and exploring how the artist uses line, form, texture and colour.

Present your work as a piece of research taking care with layout.
