

## **Year 7 Homework – PSHCEE (instead of Art) due wc 3<sup>rd</sup> June**

Following on from the work in class, please design an advice poster for teenagers about 'Keeping it Right Online'. Use the website [www.thinknow.co.uk](http://www.thinknow.co.uk) for advice and for advising people as to where to go for help. Your poster should include advice about checking your settings and making your accounts private; how to create a strong password and what to avoid; when to post comments/photos etc...and when not to; what to do with 'Friend' requests. (WT/MED)

(Med/Hot) Your poster could signpost people to other sources of help and support if they are affected by something they have seen or read online.

(Hot) Your poster could include some examples of incidents where the wrong choice/decision was made and what the consequences were, or what the potential consequences could be.
