

Distance Learning

To support the ongoing education of our students self-isolating, we now provide distance learning on '*Show My Homework*', which can be accessed via a mobile phone, laptop or tablet. Distance learning will show up with a red banner (as 'Classwork'). Please be aware that this only needs to be completed by students not at school. Maths should be prioritised first, followed by English and Science. Students should then choose from the other subjects if they are able. Don't forget, home learning should also be completed where possible.

Unfortunately, we do not have the capacity to create a learning experience quite as detailed as the work provided during lockdown, as all teachers are fully engaged with students in school. However, we have set up distance learning that matches what students are learning in school or work that will enrich the curriculum.

Hard copies of work will be available from the school office for those students without access to the internet. Please email admin@edwinstree.herts.sch.uk or telephone 01763-271446 for a pack.
