

Introduction to Show My Homework for Students

- ✓ **Keep track of all your homework online** with your personal To-do List. No more writing homework down in class!
- ✓ **Receive auto-alerts** to remind you about upcoming deadlines. Whether your homework is due tomorrow or at the end of term, you'll never miss a deadline again!
- ✓ **Download the Show My Homework app** to access your homework on the move.

Features built with you in mind

Homework

Access all your homework online with full instructions from your teacher. You'll see how long a task should take, how it should be handed in and any helpful resources - all the information you need without having to write anything down!

Submit in class or online

Your teacher will state whether your homework should be submitted in class or online via Show My Homework. Online tasks can be instantly submitted by uploading a photo or document of your work via the app. You can also log on to the website to submit a written response using our in-built word processor.

To-do List

Your personal To-do List helps you manage your time and workload. All your homework is listed in chronological order by the due date, so when you've finished a task, just tick it off. No more surprise deadlines!

Gradebook

Use the Gradebook to track any grades you receive. Spelling Tests and Quizzes are graded automatically, giving you instant feedback.

Comments

View any comments left for you by your teacher on your homework. You can also leave a comment for your teacher before the homework is due. Ask questions to ensure you understand fully, or request a time slot for face-to-face support.

Mobile app

Download the free mobile app to view your homework on the move. Automated push notifications remind you when to submit homework and alert you to feedback from your teacher.

School Calendar

If you ever have trouble logging in, you can always find your homework on the whole school calendar - accessible via the school website.

However, since the calendar shows all homework set across the entire school, you'll need to use filters to find your own homework. For this reason, it's best to log in as your first port of call and use the school calendar as a backup.

Our Support Team are on hand to help with any login, technical or usage questions you may have:
